

## FCRA - Renewal Process / Reasons for cancellation

**Speaker:** All registrations have to be renewed with effect from 1<sup>st</sup> May 2016. The application form to be filed is FC5. If you fail to get your registration renewed it will be deemed invalid, after which you cannot receive any foreign funds or spend any of the foreign funds already present in your bank account. No certificates shall be cancelled unless reasonable opportunity of being heard is provided. Once cancelled you cannot apply for registration or prior permission for 3 years. Violating the act or the rules, providing false information, acting against public interest, violating terms and conditions and no reasonable activity for 2 years are some of the reasons for cancellation.
